Hey y'all, it's your girl Boonie and you're listening to the Boonie Breakdown podcast. Your source for all things responsible and ratchet.

[0:42] All right, welcome to this week's episode. We are back with our problematic fave Brian. We got that we never plan what we're going to talk about but it always comes out being so funny and ridiculous at times, but this one starts responsible and then it completely goes off the rails, okay?

We do answer a listener letter. This one was probably the oddest, weirdest.

I still don't even know if it's real, but it came through on my website and we talked about it.

We also talk about trash, sex, toxic relationships.

I even asked Brian what the difference between juicy and wet pussy, all right? So you want to stick around for that conversation.

We're going to hop right into my pick of the week and while it's fresh on my brain.

The pick of the week is the Rennie World Tour film.

And y'all know that's Renaissance, right? I've been calling it the Rennie because I just don't know how to spell Renaissance. So I just been shortening it, calling it Rennie.

[1:47] I just left the film with Mama Ratched and my only complaint is that it's long as fuck. I mean, it is long.

And I think sitting in a movie theater, it's been a long time I've sat in a movie theater that long that I much would have preferred to sit on my couch and been able to cut a fool.

Thankfully though, in my theater, there were a few people who were cut and loose.

They were getting up, dancing. She walked down her aisle, but it wasn't truly disruptive.

But I think people got, the movie was so long, they got so tired that it didn't last long. So I didn't complain.

It was really good. It was very endearing to see Beyonce as a mother, to see Jay-Z as a father.

I liked that they cut the long, boring intro.

I mean, it wasn't boring, but it went lengthy of the ballad.

So I liked where they edited and shifted the concert.

But what I will say is from this, watching the movie, it has confirmed that I just need to go ahead and save a thousand dollars, \$2,000.

[2:49] Cause if she's going to keep doing stadium tours, I need to be up close and personal.

I think that was one of the reasons why I felt like Renaissance wasn't my favorite Beyonce

performance that I seen live because I was so far away like and I wasn't even in like bad seats

but it was like the 100 sections but it still just wasn't club Renaissance you know so yeah when

we whenever Beyonce gets to Vegas I need to just go ahead make sure I have a savings

account cuz I'm gonna blow the bag cuz I need to be up close and personal I don't know if this is the unpopular opinion if anyone feels this way.

But I feel like I enjoyed the concert in the movie more than I did in the concert.

And I know part of it was because she cut those stupid interludes that I hated that I just thought the energy energy dropped during the interludes.

And then when she came back on stage, it went back up.

And so I thought it was more interesting to watch the clips of the behind the scenes and her thoughts than to watch whatever those interludes were to me.

And so, yeah, I enjoyed the concert because it was like she definitely performed to the camera.

And so, yeah, those are my thoughts. Ten, ten, tens across the board.

Housekeeping and Introduction to Feedback

[4:07] Housekeeping. Come back later, please. Housekeeping. Not now.

All right, we're going to go into feedback from episode 241, Black Women Prep 2, with our guest Ashley Cobb.

A lot of interesting feedback on this one, because so many of you did not know, that as a woman, as a cisgendered straight woman, you could take PrEP as a preventative measure to protect yourself from HIV and AIDS.

And so for me, that is a win when you guys learn something that can help you out in life.

So if you have not checked out last week's episode, I encourage you to do so.

Also last week, December 1st was World AIDS Day.

And so if you've listened to this episode or going to listen to this episode and you do not know your status, your STI status, your HIV status, then this is your plug, your reminder, your gentle reminder to go ahead and make sure you get a test done, STI screening done before the end of the calendar year because you can't have good sex if you're not having clean and safe sex, all right?

So be sure to take that and make that a priority.

[5:26] Also, Patreon gang, I gotta shout out Patreon gang because I had a very long day on Thursday, but I ended the day with Patreon gang for our first book club session.

It was really, really dope. So book club gang, Patreon gang, if you missed a book club, I will be posting the replay up for you all.

I will announce our next book club selection and date as well.

But we had a really good time and a really good conversation.

And naturally it went other places is just by the nature of reading, rereading Corinne Steffens' Confessions of a Video Vixen.

All right, and if this is your first time listening, welcome, I'm glad you're here.

Stick around, listen to some more, and just make sure you follow us on social media, at the Boonie Breakdown on Facebook, Instagram, TikTok.

We're just at Boonie Breakdown over on Twitter.

So that is it for me. Let's get ready to break it down.

[7:06] Music.

Introducing the problematic fave and listener letter excitement

[7:14] All right, y'all, we have the problematic fave here today.

Hey, Brian. Hey, Boonie. How are you? I'm doing great. I'm in a good mood.

I'm in a great, great spirit.

I am too. I have no complaints. I have a listener letter for us to do.

It is kind of wild actually, so. I'm excited about that. I love it. I saved it for you.

I love the spontaneity of this show.

I really do, really do. I got this one and I hope whoever's listening Whoever sent this in because it's anonymous.

They sent it through my website That's how I didn't see it at first because it went in my spam folder And so I was looking for something else and I was like, oh wait What's this one here?

[8:01] Wow, what else is happening in your life since the last time nothing man.

I just had a lot of positive stuff going on Um, I got a better human.

I am. I've always been a good human. It's just your listeners. Don't think so.

Um, I really be doing real shit behind the scenes, but, um, you really do.

I will give you credit for that. Cause you just, people don't know that you gave Thanksgiving meal.

So at 15 families, 10 families, yeah, we've had 15 families.

Um, that was the highlight of my Thanksgiving weekend. Um, that was good.

Um, we did three the year before. I do have a real job.

My real job gave \$10,000 to my nonprofit, Baltimore Bikers.

That's amazing. Yeah. So they were like, I was trying to hide it.

Because you don't want your manager to know what you're doing.

So she was just like, hey, what you got going on?

And this was a year ago and I was like, yeah, this organization I work with, we feeding three families this weekend.

And she was like, oh, that's so nice. So she sent it to HR.

HR get to fucking snooping around and want to highlight something that I'm doing.

And then they emailed me and was like, are you the executive director? I was like, oh shit.

[9:11] You don't want none of the people to know that you got some other shit going on.

So the good thing was, it was nothing that was for profit. So by being a non-profit, and me saying like, oh, this is what we do.

We ride bikes It wasn't like oh he doing this shit while he work, you know, When we got to our meeting they had already did a highlight on what I did And then we got to our meeting they donated ten thousand to, Go organization to do more work that people listening or probably didn't even know our problematic faith had this side to him That's dope.

Yeah, it's on a lot of shit.

So Yeah, it's more shit that they end up falling in love with.

[9:48] Three weeks ago, I got my real estate license. So I was already a loan officer and then I decided to be more on the sales side because it gave me a chance to be independent.

Sitting behind a desk, crunching the numbers, it was cool. It made me, I feel like, put me in a better position to be a realtor.

So it's like when you get to talking to people and they feel like, oh, this realtor didn't know this or that, they just kept telling me, call a loan officer, call a loan officer.

Like, yeah, some stuff you do got to call a money person because they're the ones who handling your deal, but I should be able to ask a basic question if you're like, well, what's going to be the difference in this house?

Every \$10,000 is going to be \$60 to \$70 more on your payment.
Just something simple like that, or understanding, well, if I'm at this interest rate and the seller gave me this much, can I buy my rate down?
Simple questions. This is the most responsible our listeners probably ever heard you be.
Yeah, so they need to call me. I bid you to fucking Nino Brown at Thanksgiving and shit. Yeah, out there passing out turkeys.

[10:49] Trying to right my fucking wrongs. But yeah, so it's cool. Got the real estate license.
Anybody want to buy, sell, rent, or hold? Just holler at me.
We'll do all of that. But I got accepted to Morgan's MBA program.
Shout out to- Look at all of this.
Yeah, so I got accepted to the MBA program and going back to school.
I said I was never going back. I said I was never, ever in my life going back.
And then I was like, I'm only going back if it's free.
So Monday I got the, yesterday was Monday, right? So yesterday I found out, yeah, I got a full scholarship.
So I'm going back and I'm just, I'm always busy, still got the business, still working a full-time job.

[11:38] Taking care of my 50 million kids. But I always feel like it's not enough.
And sometimes people don't realize how people get there.
And it's like, you got to really go- What happened to you to get you there?
Real talk? I got laid off in 2019. I'm like, it's always a story.
No, yeah. And it is, because you were there.
And it's stuff that we don't discuss and people don't know, but when you get to that point where you be like, yo, I got this education, I got this skill set, I got that skill set, and it's just so easy for somebody to take.
80% of the money that you make away in one swoop.
It's a scary feeling when you got unemployment, you're going through your savings.
I had to postpone me buying a house. That's why it was such a big deal when I talked about buying a house because I ended up taking that savings.
You start dipping in your 401k. We got grown people bills now.
Grown people bills. Ain't no whore. Ain't no joke.

The challenges of unemployment and homeownership

[12:34] So it ain't like you get to unemployment and you're like, yeah, this shit gonna hold me.
You're like, this shit like. Ain't puttin' up for us.
Yeah, it's like, what unemployment give you is the shit your wife will give you.
Like covering the BGE, cable, shit like that. Like, you start getting shit cut off.
Unemployed will keep you fed with heat. Yeah. And maybe some gas in your car, if you got no car note.

[12:56] And you ain't paying the fucking mortgage. That's why I say like, that's what the wife gonna give you.

Like, she gonna pay the BG&E, she gonna pay the wifi, she gonna pay the cable, shit like that. And then you gonna be like, okay, like, Oh, you only putting \$1,000 a month in here?

Oh, all right, I'll see. That's how you know we owe. Because I was telling somebody that the other day, they were saying there's really no advantage to owning versus renting now because of the cost. And I was like, that's not necessarily true.

I said, because when Tom's get, if Tom's ever got hard, hard, and I couldn't pay this mortgage at the first of the month, they not putting that notice on my door. It's going to take years for me to be homeless, baby.

Oh, yeah, and you could call them and be like, yo, I need you to, like, I'm in this situation.

Can you put me in forbearance? Can you put my payments to the back?

Can we even if your credit takes a hit they can't immediately tell you get the fuck out your house, right?

So it may be a temporary setback, but I know I'm gonna have a fucking roof over my head I'm not gonna be out here on the streets and to me that is as big of a advantage Then just take an equity out of your house. I mean you can basically be like look I got, 100,000 equity in my house. I know I'm about to lose this job.

I got laid off before something happened. Let me figure out a way where I could go ahead and get some money out to help pay these bills or pay this debt off and then set myself up.

It's a lot of different things you can do, but it's definitely an advantage because tax season is big because all you're paying- That's the only thing that saved me.

Yeah. All you're paying in the first 10 to 15 years of your amateurization is nothing but fucking- Interest.

Yeah. Yeah, you're paying all the interest. You're not paying on a principal.

[14:24] So yeah, we're getting a little deep. Man, listen, we on some real I'm an adult grown problem shit.

[14:31] Well, we say responsible and ratchet, so we got our responsible part out.

All right, responsible, check. Let's go.

So ratchet, OK. I said I had a listener letter.

[14:41] I wish that, let me pull this up on my phone so that I can read and see your face.

You giving it to them already? You want to give it to them this fast?

Do you want to? Cause I feel like this- No, no, go ahead and give it to them.

Go ahead and give it to them. I feel like this- Sometimes we make them wait.

Sometimes we do, but I feel like this one could spiral. And so I'm sending it to myself so I can read on the phone so I can look at your face at the same time. I'm scared. I'm scared.

So I got this listener letter guys.

[15:11] And at first I was like, I don't know.

But then the person followed up with a second one. And I said, oh, shit, this was real, because they said, did you overlook my letter?

And so I was leaving my spam folder, looking for something else, and found this letter. So it says, hey, guys, my partner, girlfriend, fiancée.

Unusual Belly Button Fetish Confession

[15:35] So that's all I think, girlfriend, fiancée. I don't know why I said slash there. Need your assistance.

We're both in our 20s as well, around 25. And we're from the UK.

Hey, we got international listeners, motherfucker.

So we're both in our twenties. And so basically my partner has this weird fetish, a kink obsession, if you will, for tummies and belly buttons.

I had to look up and see your face. Like what? Okay.

She specifically has a fetish for my belly. I have an outie belly button where my belly button sticks out a tiny bit from my belly.

And I don't know why I was born with this belly button sticking out.

An Audi like a fucking baby. Ain't you supposed to put a quarter on that shit or something? You supposed to put a quarter on the belly button.

That's what a black people said.

A Belly Button Obsession

[16:35] I'm like, yo, what the fuck? So, it says I was naturally born with it, whatever, whatever. So she basically wants to mess around and tease and play with my belly button in different ways, specifically with her wet tongue by licking my belly button.

And she also sucks on it at times, and she wants to tickle it and bite it, nibble on it playfully.

I want this to work out with her, but I just can't get over her obsession with my belly button.

The raspberries and Zurbert's things, the belly blows, I'm just over it all.

My belly is hypersensitive, ticklish as well, and I'm very self-conscious about having an outie belly button in general, and her fetish makes me feel subconscious.

This is where I need help. I want to know how can I turn the tables and tides on her by messing around and teasing with her belly button so she can leave mine alone.

Any tips or advice you can for us to get overcome this kink, obsession, and fetish would be great.

If we could stay anonymous, that would be great too.

[17:38] Oh man, that's so weird. I thought you was about to say that she was fucking the belly button like she was trying to put it in her pussy.

Like that's what I thought she was going with it. So it wasn't as bad as I thought.

So, I mean, I skipped over some things because it was a lot of slashes, but it was like she She wants to kiss it, she wants to snog it, she pokes it, she prods it, she tongs it, she fondles it, so maybe she fondles the bellybutton with her pussy.

Could you see somebody dragging their pussy on your bellybutton?

That's crazy. So this one is very extreme for me.

I can say there's a lot of things about a man's body I like, but I don't even know if I've ever paid attention to a man's bellybutton, honestly.

I don't know the last time I've... I have a fetish about it.

I haven't seen an Audi on an adult.

The oddity of outie belly buttons and their rarity

[18:28] I'm thinking, now that you say it, I don't recall an outie belly button either.

Yeah, I haven't seen an outie on an adult.

That's why it's almost like just something you've seen on a baby, and you see a little fucking quarter taped to him.

Maybe he should put a fucking quarter over it. I don't know.

Is it too late? Would a quarter still work? It's not gonna work.

I would just, at the end of the day, I would just be like, Look, fucking stop.

At some point, you got to just be honest with your partner and just be like, stop.

If they're doing some shit that they like and you don't like, at some point, you got to just be like, yo, I don't like that shit.

That's the only real advice because there's nothing you can do to mess with her belly button that's going to be like, oh yeah, now I know how he feels.

Sometimes you got to just be like, stop.

Please stop. Like, cause, yeah, a belly button is just such a, so unsexy of an area on your body.

[19:31] I feel like the only time, I'm trying to think, have I ever, no, cause a nigga will be laying on his stomach if I'm like rubbing him down.

I can't think of a time that I'm touching anyone else's belly button.

And I only touch mine when I'm cleaning it.

Yeah, and that's the whole thing, like, I don't know. like, it just seems real weird.

Oh my God, it's a thing. You googled it? A navel fetish.

I don't know how you pronounce, an alvenophilia. That's probably where Aldi came from.

Where individuals are attracted to a human navel. In 2012, it was the second most popular fetish search on Google.

[20:17] So, I think it's sexy when you kiss down a woman's stomach and you kiss around her navel and down the little ... If they got even the little line that used to be there, like a little hairline almost, but a little black line. The happy trail, yeah.

Yeah, so it's like taking you down and you're trying to be sensual, so you ... You're trying to take your time, but you really want to rest right down there and start giving a hiss.

Well, here's the thing- Are you trying to play like you sensual?

That's it. But I ain't never been like, let me lick inside that motherfucker.

Like some people don't clean in there.

Oh my God. They don't. I just found out about a thing called belly button stones, because people who don't, who have anys and don't clean their belly button, it will literally calcify into a stone and they have to get them removed.

That is fucking disgusting. Like, I'm sorry if you've had those, that is gross, but it's that the navel is an erogenous zone.

It has multiple nerve endings to make it sensitive to touch and alive and various sensation for some folks.

It also shares the same kind of tissue with the genitalia.

Wow, never knew that. No, thank you.

[21:25] I guess my only advice is- It's a similar fetish to people who have feet, foot fetishes.

People will use feathers, candles, food, sex toys, and others in the practice, if you admire your partner's belly button.

So maybe pour some peaches in her belly button and maybe she'll leave you alone.

I don't even think you... I just think sometimes it's a matter of not even you doing what the... Do unto others.

I think it's one of those things where it's like, look, just don't do this shit.

I don't like it. And I mean, if she can't get down with the fact that you don't want her playing with your bellybutton, I don't even know.

I mean, I don't know. That's weird.

Okay, I'm in a rabbit hole. It said Do not try to penetrate your partner's navel you don't want to risk hurting your partner by poking them in the belly button and it was saying because a Sex worker from Turkey decried the lack of sexual education in the country around me now Navels revealed that men were forcibly having sex with their wives belly buttons, If there was no blood they assumed she was not a virgin, No, you can't. You can't be that fucking smart.

[22:38] How small is your penis if you're fucking a belly button?

But just the whole fact that you that high, like, come on, dog, you way too high.

Like, you way too high. Like, are we up there? Like, come on, man. Like, some of this shit you can't make up. Like, this shit is free.

I cannot imagine a nigga fucking my belly, but it's only like this deep.

How is he doing that? You feel that?

Yeah, nigga, you hurting my ribs. Are you playing?

The Misconception of Female Anatomy

[23:14] He think he finger popping you, and he got his fucking finger in your belly.

But you have a point. You know my pussy is not on my belly.

Right, yeah. Way too high. You know, some men probably don't.

Like, the babies are in your belly, so maybe they think that.

I don't even think you need sex education to figure that out. Come on.

You think so? No. I also, I know somebody and this wasn't on know.

[23:39] I know somebody who dated, this is you, this is not anybody I know personally, this was like in my 20s, but this girl was dating this guy and she's like, they were having sex, quote unquote.

And she says, she's like, you know, you know, put it in. And he's like, it is.

And she's like thinking, oh my god his dick is so small but she realized the second time they went to go have sex that he was never putting the dick in her pussy he was just like putting it in between the meat of her thighs and he was fucking her thighs this is the stuff that men don't believe that are there this is why men can't that's why i feel like you have that's why i feel like you have to grab the dick You do, you have to take control.

[24:27] So yeah, so she was like, at first, she was like, she was so confused the first time because he came and everything was a big whole thing and she's like, I didn't feel anything like, oh my God, he has a small penis.

And he like, she said he like got up and went away.

So the next time that's what she's like, no, I'm gonna, what's happening down here? And then when she realized like, you're not in my vagina.

And he was kind of like, what?

Like he did not know. They were like 25.

And so she was like, oh shit, you're technically a virgin.

She like took his virginity cause she showed him how to put the dick inside of her.

He had never had sex in a vagina. He just thought the thighs.

So I was like, you know what? I blame women. Cause how many women was he out here thigh fucking and y'all just let that man pass along.

[25:16] And that's why I like, I think sometimes when you realize how bad sex is out here, you really start to understand why so many people are like attracted to such toxic sexual relationships because this shit be so bad. When you get some good shit.

Yeah, like they get some good shit so they hold on to it even though it's not the right person and then they end up settling for somebody who might be just the right person for them to settle down with.

And that's where we get all of that. But it's like, I blame lack of communication.

A thousand percent. Yeah. So many people are so uncomfortable talking about sex, talking about what they like, what they don't like.

I remember early on in my early sexual experiences thinking everything I did was so right.

And it takes getting your ego bruised a couple of times so you have to just be like, okay, but that made things better. I'll never forget, I was was probably like 19.

And I was just like, yeah, is this too much for you? Is this too much for you?

So when we finished, she was like, no, my last boyfriend, Dick, was like 12 inches.

And he sent me to the hospital like three times. And I was just like, damn.

Okay.

The Preference for "Just Right" Sizes

[26:39] But she was like she's like this is just right oh you have that meme happen to you, That's the worst hurt yours is just right Yo, that shit is the worst y'all do that shit all the time with a chicken be like no I don't want it to be super big. This is just Right?

But here's the thing, though, because I think what is a big dick is very skewed, right?

No one, like, I've never sat with a dick with a measuring stick, like, yep, nine inches is perfect for me.

I have no idea in terms of the inches, but I know what it feel like inside.

But I don't know what that translates to. But I will say, for me, myself personally, where have the big dicks gone though? Because it's been a little while.

[27:34] Now everybody know, listening, I am a size queen.

I don't shame small penises, but I do think big dicks should be marveled.

They should be praised, especially if they can fuck with a big dick, shit.

You deserve, you deserve it all. I love a big dick. They're just pretty to look at.

Where have they gone though? The big dicks are gone. I couldn't tell you. Is it global warming?

Listen, I don't fucking know. I don't know. At the end of the day, so this is where I make the comparison, right? Okay.

I think men, naturally, based off of what somebody has told them, feel like they have a big dick, right? And it's all relative.

It's only relative to the other dicks you've had, relative to maybe the last dick you've had or the dick before that. and now all of a sudden my dick is king dick to you, right?

Same thing with pussies. Women brag about their pussy being really wet.

Now- We do that. Okay, that is our bragging metric. So it's like- I got a water park in this motherfucker, yeah. Right.

So everybody thinks they got a little baby water park, indoor pool.

And a lot of times it's just like, it's like when the road, like it's just from just start raining, like it's damp, right? Like, baby girl.

[28:57] The shit ain't running up your back.

The shit ain't, you know, all over the bed, like how you talked about it in the text messages, like, you know what I mean?

And then sometimes women will try to say stuff like, oh, the nigga didn't get me there. But guess what?

Like, after a certain amount of times, and you was coming and going out, like, it never reached that point. So I think everybody has a level of exaggeration, for where they want to be sexually, but it really doesn't matter.

As long as you find that person.

You found your person. That's fair. I'll let you rock with that.

Because he's still gonna, like, at the end of the day, like, I can have the best sex in the world with you, and you don't have to have the wettest ass, and I don't have to have the biggest dick.

So it's like, as long as we can find out what works, it doesn't matter.

No, I'm with you there.

It's just, it really is something about a big dick. Like you be getting these little dick pics and they be like, it don't even make you drool because it's like, where's the meat?

[29:58] No, and that's where I'll be so confused because I don't even care no more. But when I was younger, I really cared about what somebody thought about my dick. Like, I really felt like if I fucked you, I needed to know like what your best friend thought. You know how we will all be in some friend circle? I'm sharing it. Look, and we'd be like all in a friend circle and I'll be waiting for my feedback. Like I just got out of the interview. Like calling a recruiter like, hey, everything went well, did you get any feedback? And they'd be like, yeah, you did a great job, blah, blah, blah. So it's like, you always look for your homeboy to be like, yeah, yo, her girl said you laid that shit down. You never wanted it to come back. That you did a bad job. Like, I don't know of too many bad whole reports. Like we did the whole facts thing last time. I know a lot of dudes who got like bad reports and I always felt bad like, when you're around them because as soon as they start talking all you know is lies.

[30:59] You know it's lies you're like what you did what how'd you have it like oh damn no you know it's all fucking lies i'm gonna ask you this because you said when you talk about wet pussy so is there a difference from your perspective if between juicy pussy and wet pussy so yeah it's like a density, just like y'all talk about girth, right? So you might be like, OK, a big dick might be all limp. Somebody else might be a big dick just because it's thick and it fill them up or whatever, right? So it's the same thing with pussy. It can be real wet and splashy and just squirting everywhere. And it's more like water or whatever. And then it's like the thick wet, Where it's like, you feel like you dipping your hand in like a smoothie, like, oh, shit, like this shit. Like, you gotta wring your shit out when you take your hand out. So it's different levels to it, where it's almost like, squirters, creamers, that whole like, debate, like, which one's better. What do you like, a squirter or a creamer?

[32:12] Yo, I feel like at the end of the day, I don't even know because it's like, I feel like everybody has their place. Look at you. Everybody has their place in the ecosystem. Yeah, because it's like sometimes you might just be like in the mood when you have a squirter on deck. You might just be in a mood for that nasty shit where that shit just be squirting everywhere. But the hard part about that is- You got to clean that shit up. You got to clean that shit up. And then at the end of the day, you don't want to fall asleep, all that squirt everywhere, and wake up in the morning like, where the fuck you peed in my fucking bed?

[32:46] Bitch, did you pee on yourself? Oh, that's the towels and shit. But the thing is, I couldn't imagine marrying somebody every time you have sex with them, they're squirting five, six, seven, 10 times. That's annoying, actually. Bitch, calm down. Yeah, that shit is like ... It's a turn on when you're doing it, but like you said, it's a mess. It's like trying to fuck in the car, trying to fuck in the kitchen, every time you look up, it's just everything, right?

Did you see the ceiling challenges going around and some couple did it, they're fucking and the floor was waterworks city, I guess you like squirted everywhere on the floor. I was like, so I'm watching it, I was like, oh, look at the floor. It's funny that you say that, juicy pussy, wet pussy, because I, it was said to me, I'm, I've said this before, I'm very honest in my sexting. Like I don't, or any sex talk, I'm not like, oh, give me that big dick if your dick's not big to me. If it's pretty, I'll also give you that pretty dick, give me that thick dick. I might say things like that. So I always describe myself, I always say, juicy pussy. I never say, I don't, I'm not a self-assured, wet water park. I ain't wet pussy, but I always say juicy.

The Importance of Under-promising and Over-delivering

[34:12] And it was brought to my attention. And so the person was like, do you not think yours is wet?

And I said, no, I do. But I don't think that's the word for me. Because I think if you say wet, then you're expecting waterworks. And for me, you went to do a lot to get the waterworks squirting situation. Yeah, so that's the same thing with saying you got a big dick. I'm not one of them girls where you touch my clit and it's like, I don't do that. But that's the same thing with saying you got a big dick. You shouldn't be out here selling a big dick. because now you don't know what a big dick is. It's all subjective. So you don't know what real wet pussy is because you're not on either end receiving it. So at the end of the day, I would rather under-promise over-deliver. I would rather drop that motherfucker out, and you'd be like, oh, wow, you was holding back on me. You didn't tell me. Well, I didn't know it was going to be this. And then you might feel it differently versus how I move it around and give it to you. You know what I mean? It might be that 240 pounds, banging that thing in you and you'd be like, man, you reached a part I didn't even know you could get to. You went parts of Pussy Town I didn't even know was there. But that's what for you to feel and not for me to sell myself or be like, oh yeah, I got a big dick and then you disappointed. I'd rather like the shock and awe that we kissing and we touching and next thing you when I take your hand and you'd be like, oh, you know what I mean? Rather than you being like, oh, like, what the fuck is this?

[35:40] Yeah, I just feel like, you know, you got to temper those expectations in which you're putting out there about yourself.
I have a question though, because in heterosexual relationships, like, I know what a big dick is, and you know what good pussy, what pussy is.
And even for gay men, they know dicks and they know booty holes and mouths.
But how do lesbians know what good pussy is?
Like, what's a good pussy to a lesbian?
They don't feel inside of it. I'm going to have to ask somebody.
Because I'm just like, I wonder how lesbians gauge what good pussy is.
Or bi women. I don't know.
So I think for us, sometimes when we really love eating a pussy, like, oh my god, I love eating her pussy.
We have women who are like, we really, genuinely love eating y'all pussy.
It's the way that you respond. It's the way that your pussy look.
And sometimes it's the clit. Sometimes it's like, y'all have big clits, little clits.
It's hidden by the hoodie, non-existent, like, oh, yeah, you'd be like, I took the fucking hoodie off, like, it's a fucking pussy.
Like somebody might not even know what you're talking about, yeah, I had to pull the hoodie back to get to that motherfucker.

[36:51] But certain women could probably fall in love with the look of a pussy or the way that it get real wet or a spurt in their face. I don't know.
It could be that whole idea of like, oh, yeah, but that's very weird.
Like, I don't understand that whole idea of, um, yeah, I never will understand that.
I mean, they're good at pussy because gay women have the most orgasms out of all women, so they're good at the pussies, but...

Bisexual Women Seeking Something Different

[37:19] See, I already feel like I got a whole different mindset on that anyway.
The listeners probably wouldn't like it, so I'm not even gonna say it.
But I just feel like a lot of women who are bisexual.

[37:33] And this is along the same lines a lot of women who are bisexual a lot of women I know that have done both guys and girls right Open to doing shit with women and it was a man. Oh, I'll fuck a girl.
That's what girls before. They're overly sexualized It's usually women who have had So many male partners and so much heartbreak and stuff that they just they fucking play wherever You know what I mean?
And it's not that they, I'm not saying all women like that, right?
But it's this segment of women who have been so hurt and ran through that they go both ways just because at this point, they're looking for something completely different.

It's love, it's affection, it's someone that, and it's like, you see this girl, now she with a dog and she happy because no nigga fucking would be with her.

Like everybody was just fucking her. Like, and I'm sorry if that's your story and now you don't want to listen to me anymore and Brian's a dickhead, but if that's your story, no, because I know so many women that we went to school with and it was like, yo, she ought to change, she this, she that.

And she was like, oh, she a hoe or she a freak. Everybody fucked her.

And now you look up and be like, oh, she with a woman.

[38:47] You get what I'm saying? It's not that like you felt like she liked women because she fucked so many men.

Where did this come from? Like now you're looking for somebody who's gonna almost like love you and treat you a certain way.

It was an underlying issue that you were looking for love in all the dicks that you had and because you didn't get it, now you're getting it from a woman.

[39:08] It's like you're looking for something you couldn't get from a man.

I hear what you're saying. I hear what you're saying.

You so freaky, like even niggas, like you so freaky that you borderline gay because you've got so many freak sex tendencies, that you're willing to do anything, letting the chick play in your butt, and then we can slide right on into this. Oh, Lord, we were doing so good. No, no, no.

No, because there's a lot of men who are so close to that line of crossing over because they're allowing women to do certain things to him. It almost makes you feel like he's suspect.

[39:45] So I'm gonna go on the record and say, I do not want to peg a man.

I don't have those desires.

Right. I know some women do. I think it's a curiosity.

I think for somebody I know who has done it for her and it's not that something she went to keep doing.

I think she was just shocked. She just wanted to find a man who would let her do that to them.

But I don't think, I don't say it's gay because it's still a woman who's pleasing you. I don't think it's gay.

I don't think it's gay. And what I'm saying to you is, it's very close.

And as a woman who does it, they can respond and tell me if you're pegging a man and you're doing things where you're, you know, putting your tongue in his butt.

Now you're starting to put fingers And now you're going to tools and toys Whatever you call it, but plugs or toys.

I don't even know if it's for a man. You call it a toy.

[40:44] Hey, babe, go get the tools like you don't you don't have any sex toys Brian.

I'm Brian No at the end of the day. I'm gonna have that broker thing Nah, so at the end of the day if I bought it for you, would you use it and do a review?

It's like a masturbator?

Yeah, you haven't seen it? No. I went to send you the video.

Yeah, you had to educate you on that. But no, I'm saying that...
He got it all. Like you said, like, I don't have a desire...
I don't have a desire for any woman to do anything, like, super nasty to me.
Let me be the nasty one to you, right? Yeah, you might think, oh, yeah.
A woman could be like, I'm super nasty. Like, oh, yeah, I'm gonna suck your dick, spit on it. I'm gonna swallow it, spit it back out. Oh, lick your balls.
Oh, wow, she nasty. I don't need you to lick my ass and put something in my butt But I will tell you and the point that I'm getting to right now is for the women out there who are pegging men and putting things like, Fingers and butt plugs and stuff and their male partners But I guarantee you each of them have in the back of their mind a feeling that he has some homosexual tendencies I guarantee I will ask those listeners.
I will do a talk to Boonie Tuesday question about pegging and we'll go there.
How about that? Cuz I don't have no experience there I just don't I just don't know how you can.

[42:08] Almost feel like comfortable doing that to a man and not having in the back of your mind that this is something that he's loving and liking so much that it's so comfortable that you're either asking yourself, has he done this before or is he on the borderline of just really being turned out?
Maybe he just likes to have posh... I hate that word.
Say it. Prostate. Yes, prostate.
There's always one. I mean, look this up. I hate that word.

Exploring Prostate Stimulation and Sexual Preferences

[42:42] Prostate orgasms. But sometimes it don't reach your prostate, right?
Just the fact that something is touching your butt. But you know, it might be just the sensation, it's nerve endings in your booty hole.
I totally get it. I totally get it. I'm not saying that that makes you gay.
Like, I'm not saying that. I get what you're saying, but he may just enjoy playing that booty hole.
And I'm saying that the woman, I'm saying that the woman, even though she thinks that he's not gay.
You're questioning how can a woman still be attracted to someone after they do that to them?
No, no, no, that can still be attractive.
I'm just saying that my question is, how many of you women who have done it, it has not crossed your mind? Okay.
That this man might could possibly.
Is suspect is what you're saying. Suspect. Because I've talked to women who have done it.
And they just was like, oh, yeah, you know, the dude said this and said that and then he would say cold words like oh, you gonna have your way with me or you gonna do this to me tonight you know stuff like that and it becomes a thing where they like looking forward to, getting pegged and I'm just like and what did you think and they always be like in the back of my mind yeah I did kind of thing and then they're not with him no more. So they're like, faggy ass.

Oh, God.

[43:58] You can't argue with a woman no more after that. Because now you're like, hey, that's, you know, you're going to that's not fair, though, right?

If you've agreed to strap up, lube up and penetrate your man, it's not fair to then go turn around and call him the F word. No, I get it.

I totally get it, but I feel like... But I get your point.

Yeah, that's a vulnerable space for you as a man when you're trying to talk shit to a woman and you know she had you bent over.

Diddy's Troubling Allegations

[44:33] You're in a tough spot.

Good Lord. She'd be like, watch what you say. Like, yo, why is she always able to shut you up, dog?

But moving on, so taking that from here to here real quick. I don't know how much time we got left, but listen.

This shit is crazy with this nigga Puffy. I mean, we always knew. We always knew.

We always knew that he was suspect.

I don't know we knew to what point he was abusive and getting men to run a train on Cassie and watching.

There are some sick motherfuckers out here.

So when it first dropped, I was not able to read all 35 pages of the allegations because when I started going, I was like, oh, this is way more graphic than I was prepared to, even though it had the trigger warning on there. I didn't read any of it.

I'm not bigger Will you read it I mean in addition to Drugging her and forcing her to have sex with paid escorts He was like, Really beating her ass like yeah.

[45:47] He was in a blanket today And he was like, yeah get the fuck up.

Come on. Let's go for a run for a beach And 50 is the leader of this Oh 50 hates his guts.

Yeah Oh my God, so 50 posts something every day, he at the snickerdack.

That's what KG told me. Kenny was like, he's posting every day about Diddy.

The last person I want to beef with is 50.

He is the pettiest person out there.

Like, when it got to the point where like, when him and Ja Rule was done, and Ja Rule was like over, and he wouldn't let it go, I was coming like, come on, yo.

It's like you watching somebody beat somebody up, and they just stomped them, and everybody pulled them off of them.

Like, come on, yeah. like, getting they self together and you just come back over like, pow, still on, like, come on, yo. That was a nice answer.

No, he definitely is a habitual line stepper. Like, yo, he, I'm terrible.

I feel like I'm terrible.

[46:41] Yo, he got me beat by, like, I have a heart. I do feel like at a certain point, like, I'm gonna walk away when it's over. Like, all right, we done, we good?

Yo, we good? Don't ever step out of line again.

Now they call me another name, I'm running back over. But 50, like, you could be waving the white flag if 50 is gonna be over top of you, like, pounding you. No, he will. He is relentless.

I do feel like in all of the allegations against Diddy, Puffy, Sean Combs, whoever, hindsight be 2020 like a motherfucker, right?

And so now people are like, it was a song with Keisha Cole last night that was a bop.

I don't think I ever listened to the album version, but it's like an interlude before it. And he's having a phone call.

[47:24] It's all in front of us. Yeah. Oh my God.

Like all of this was in plain sight and we don't know these people right at the end of the day. We don't know them. Yeah. So.

So I always go back to the whole thing where the one lady is dead, so she can't talk. Oh, now she being Jaguar Wright.

[47:47] Kim. I know you talking about, but you know Jaguar Wright. We doing these videos.

I don't know Jaguar Wright. Yes, you do.

Yo, I know who you talking about. I know who you talking about.

But no, I'm saying that all we really have to go off of right now, and the one person who could really crack this thing wide open and verify.

I believe Cassie all the way. I do believe her.

But I feel like the one person who could speak out, who feel like, oh, she don't have nothing to gain, no money, no nothing.

J love Feel like Jennifer Lopez would definitely be able to speak because we all wanted them to get back and then at the end of the Day, we seen what he did how he handled shine, It was so many different situations where you just was like, yo, he just a terrible person He's just a terrible fucking human being yeah And it's sad because you say JLo and I never thought about that But I did laugh cuz I made a joke like after she left Diddy and those gun charges She ain't been seen with a nigga since.

[48:45] Um, but yeah, and the sad thing to say for some people, JLo has a credibility that they won't let Cassie, right?

So if there was something that happened with her and Diddy, people would believe her over believing Cassie because that was the whole argument too.

Cassie was a gold digger. And I'm like, no, no, no, no, back this train up.

She went to him and he offered her money and she could have got an eight figure check and none of this could have, would have went public and she could have got Check in so I'm like eight figures is between 10 million and 99 million dollars She could have been paid and set but she filed them charges and that has settled within 24 hours So immediately off that that lets me know he did Even if he didn't do 100% of what she claimed he at least did 80% and.

[49:30] That's that wasn't more than enough so yeah, and that's that's crazy because

The Sad Reality of Power and Control in Abusive Relationships

[49:34] it's like it really makes me sad because Having daughters and seeing women be in positions of men with power or money Like, at a certain point you are liable because you stayed, now, you know, was the lifestyle that good that you...

Partaking in all of this stuff. I think I was watching Fall of the House of Usher on Netflix and it just like- I haven't watched it, but I know what you're talking about. Yeah.

So it's this whole thing where the more you see these different shows and movies, and it's almost like an exaggeration sometimes, but it's real.

People with money are so bored with what they have that they're so extreme with their sex lives and the things that they Anything.

Yeah. Yeah. And so it's like when you've had as many women as he had, and it becomes a whole thing about control and controlling this young girl is crazy, but it's believable because I know people without money that do it.

So if niggas get away with it with nothing and they're not paying no rent and not doing nothing and still controlling chicks with just dick, you know that somebody with millions and millions and access and talking about she wanted to talk to you.

The grip is a lot different with that kind of power and money.

Yeah, because she wanted to be an artist as well, and every time she talked to a different manager, he beat her ass.

Like the whole thing came out where he beat her ass in the hotel, took her in another room and beat her ass because she was talking to another manager, you know.

[50:57] Abuse is wild, right? Because it never typically ever starts with just the punch in the face, right?

Like it don't start there. You're abused way before you ever get to that physical part. The physical part is just the most extreme egregious, but sometimes it's hard.

This just happened with our sorority. We lost two sororities who were in abusive situations and tried to leave and were killed.

[51:24] And so it is the situation usually, and I've spoken, I don't know, in death, but I've mentioned, like, mama, I grew up in a house of domestic violence.

And sometimes if you don't have a plan to safely leave, that's when you die or get injured the most.

So it's hard to get out. And to your point, with somebody who's a billionaire, who can control the media, who's paid off the police, paid off hotels of the footage, you probably feel real trapped.

So, also to me, it made more sense, because I remember I was like, why would she get with the trainer?

I'm like, the trainer probably saw things and saved that ass one day.

And that's what happened.

Right, and she probably felt safe that, okay, like, he'll fuck his ass up, or he thorough enough.

Like, women, I always feel like this whole thing, right?

When y'all date the next guy after a certain guy, y'all want to at least feel like he gonna stand up to this dude. You know what I mean?

Especially chicks with the baby daddy, right? Like, you always got to be thinking, like, can he fight?

Can he at least make my baby daddy feel like he can't come over here and act crazy?

Like, that's the whole thing.

[52:34] It's so funny about, like, being... The need of being physically protected, right?

Like, I never thought I was one of those girls that was, like, turned on by that.

I've never been in situations where I've needed a man to physically protect me. Thank God, I hope it stays that way, right?

But I was in a situation where I ended up... The guy I was fucking, we were at the same party as one of my exes.

And my ex was drunk and one of his friends was there and he's like playing with my hair like and I had a blowout y'all know I'm natural so I had a blowout in a hot ass club it's swelling I'm like stop like it's about to blow up in here and the guy that I was fucking the guy and he sees this I don't he didn't know what was happening and I was cool with him he just saw these men like and I'm like stop and he came and like by the collar yank up and I was like oh my my pussy you never get wetter so fast.

The Male Instinct: Providing and Protecting

[53:35] Yo, I think it's the... I don't know, it's like a... It's part of the male instinct to feel like you can physically protect a woman.

Yeah, that should be sexist shit. I feel like a lot of women at the end of the day have said things like I feel safe physically or like... I mean, safety is a big thing.

So, like, when we talk about like a man's job is to provide, protect.

Let me just clear this up. I've said it before, I'll say it again.

The protection part is not just physically, right?

It's also emotionally and being able to protect our heart, protect our feelings, make us feel vulnerable to be able to open up.

So Dustin and I just focused on the fact, that's why I like Thug. No, no, no, no, no.

No. A thousand percent agree. We're not talking about just getting a gym bug who just came home.

We're talking about somebody who also allows you to open up.

But I still feel like a lot of women think because, okay, he went to college and he not I know thug nigga like how I'm supposed to feel safe.

Like at the end of the day, like I'm not trying to get into a situation where I got to pull my gun or shoot somebody, but I'm also a little bit off to the point where like there's certain things that I'm gonna intervene.

[54:43] Like it's times when I had been out and I had to learn that being married and in relationships, it wasn't my job to always swat a nigga away who was trying to talk to my woman.

I married her because I felt like she was beautiful. I have a people feel like that. Well, I knew she had a fat ass and I knew she had that dress on.

So I have to now pull myself back as an older, more mature man and realize I could die just because a nigga said you had a fat ass or touched you.

So now my job is like, look, Boonie, you got fucking 45 seconds to one minute, 45 seconds to get this nigga out your face before the fuck I come over.

[55:21] I'm gonna do hard like that. And the nigga smiling and y'all smiling and I'm across the room.

By the time I get back from the bathroom, he better be gone or I better be turning around and be like, oh, this is my man, because at that point...

Now, I come in, I'm coming in hot. But I had to learn to let you, I had to learn to let you diffuse the situation because I used to be, yo, she good? The fuck, nigga?

Like, you don't see me standing right here? And I think if you are a partner, you're respectful of your partner, right? It's a way you can say that without...

Yeah, and I think sometimes y'all be too nonchalant.

Like, I didn't know he was trying to... Well, you motherfuckers know I ain't right. You know I ain't, you know I'm crazy.

But I think some of it may be twofold, right? You do play that card.

I don't know if he was crazy, but then sometimes, nigga, it's crazy, and I don't want no smoke, right?

Like, nigga, y'all not right. Like, y'all not right.

Yeah, but y'all gotta still know when to be like, yeah, I'm sorry, I'm with somebody, or, you know, just know when. It's a balance.

Baby, let me get us some free drinks.

[56:25] I mean, I told somebody, like, I had seen this somewhere, and it was like after a situation I had where I was like flipping out and we was like in Atlanta and I had the whole to do like walked up on my Ex-wife and she was pregnant.

We weren't even married yet. He was just like, you know, something something I had just walked away to get the car turn back around like yo, she's good And then he was like you good. No, you good. She's good.

And so Funny story we get back in the car.

My buddy. His wife was like, yo, you need to chill you acting all insecure You like an insecure ass bitch like I think She pregnant, where the fuck she gonna go?

And I had thought about it and I was like, oh man, that makes sense, but I still had to hold my position.

[57:04] So we literally get off in the middle of the light and we fighting in the street, me and his wife, because she like, you a bitch.

You scared somebody gonna take your girl? I'm like, fuck you. We get out of the car.

We literally out the car, grabbing her, she trying to hit me.

But it made me think like, I have nothing to worry about, she coming home with me. I just think it's just a male dominance that makes us feel like We got a claim and mark out territory and be like Like a dog.

This is your backyard Nigga, just walking down the street chill, but the dog is naturally gonna be like don't come close to this yard You know what? I mean?

I'm nodding cuz I understand I get it. But now that I'm older I don't feel like that.

I don't want to have to fight your baby daddy I don't want to have to get to the point where I go to jail for the rest of my life It's got to be a great reason for me to have to throw hands with something over something That's mine because these days the risk it may not just be hand like yeah, nobody wants to fight He was one part of gun.

[58:05] Turning a gun and having had you know, like a gun license like it's a different story and I told my friends like Yo, you be flipping like you got a gun You don't carry or you carry sometimes when you're going over these chick houses.

You gotta put your shit right on that Right on a nice thing, Well, all of a sudden you hit it, Hey, I know somebody in here, bitch, open the door. You got to now ask yourself, like, well, what's it going to be?

Am I going to stay here all night? Or am I going to walk out this door?

But you don't know, because these chicks be lying, talking about, oh, no, I don't mess with him no more. And he just was over there two, three weeks.

You don't know, because your over is different from her over.

Everybody got these little toxic situations, like I've been.

Oh, dating is a mess. This is too much. Yeah.

I had, I was, I was in a situation, this was in my 20s, in my 20s.

Woo, thank God I made it out of them alive. Cause it was one time, cause everybody different is over.

The bitch slept outside in the parking lot. She watched me go in.

She slept outside the whole night. So I did not leave.

I guess she was tired of waiting in the car and she was bump, bump, bump on the door. So I'm like, I'm in the bed, he's like, oh, stay here.

And then I could hear yelling. I was like, I'm not even going out there.

Like, she already know I'm in here. Like, that's his problem to handle.

[59:30] Yeah, that's a whole nother situation. But then I did, I was like, nigga, you can walk me to the car, because was she in the car waiting to slice my face or waiting for me to come out?

Nigga, no, walk me to my car, she can shoot your ass, but.

Yeah, I thank God I never had any of them situations where. I'm delivered.

Yeah, I mean, I've had stories where it's like, oh, he said he rolled past my house, but nobody's ever knocked on the door and been like, yo, I know somebody in there.

Because I had friends where they'd be like, yo, a dude was at the door or I felt like somebody wasn't like, I probably had that happen, but I'm like, yeah, I always let him know like, hey, if you still care about him, I'm letting you know when I open this door, like I always have in my mind, it's never happened. And if I have in my mind, like, I'm going to have my shit out.

And when I open that door, I'm going to be like, listen, motherfucker, it's me or you.

And if I see that motherfucker, I'm shooting first, asking questions later.
And then I'm going to be like, if she run and jump on him, bitch, I'm shooting you, too.
And I got to take the phone and look.

[1:00:34] Sometimes that's why you don't want to be like, that's why you don't want to text like I'm here. Because now they're going to be like, well, you text at 145. We know it was you, Brian. Like, no, I didn't. I was at the cigar shop.

We saw your cell phone ping off the tower. Your cell phone was pinging from this tower.

Yo, I got so many things in my mind of how I could kill somebody.

And I always think about where am I going with this?

Don't look like that. That was so... That went real dark real quick.

Because I used to always think of like, I don't even know why, but when I used to run a lot, and I would be running like five miles, you running for a long time, your mind go different places.

And I used to always be like, damn, where would you turn your cell phone off or leave it at? Or where would you leave your cell phone to have it pinging?

And then who can you trust? Or what business can you go to that is busy enough that you can slip out the back door? Cuz I used to watch a lot of Matlock and shit.

Technology during the show

[1:01:30] Technology during that show, Somebody like so between 845 and 930 did anybody see you in the bar?

Yes No, you weren't because you dropped your Shoe on the way out from the murder and you bought one new shoe from shoe city the next day.

[1:01:52] That's how it would be, and a little black dude would get beat up trying to find out what was going on in the car.

This day and age, you ain't committing too many crimes and not getting caught.

[1:02:01] You might get away with it for a little bit, but- It's going to catch up to you.

But in that moment, if you got to, like if it's between you and somebody else, and you know that person got a weapon or they threatening, sometimes it's you or me.

In my mind, I'm like, look, I'd rather be judged by 12 than carried by six.

Well, listen, I'll tell you this, my grandfather, I was just talking about this, and I owe this story.

So maybe I'll tell it briefly and then we got to wrap up because I'm late for my next thing.

But Thanksgiving 2007, my grandfather was shot on Thanksgiving 2007.

So at the time, my grandfather was like 74 or 75 years old.

And he was washing the car, this is the quick version, he's washing the car, this boy came asking for a dollar. He's like, I don't got no money out here.

The boy walks away. The boy comes back and was like, give me your wallet.

He's like, I just told you I don't have no money out here. He pulls out a gun.

My grandfather's like, you know, look young man, I don't have no money.

I'm just washing my car, it's Thanksgiving.

Next thing you know, another little boy comes out, two of them. They were 16 and 18.

My grandfather is 74, 75. bath. And my grandfather was like, he was like, I don't, I'm not giving you no money, because I don't have no money out here.

And he goes, a little boy went and cocked the gun.

And pops that when he did that, it was him or me. And they started fighting over the gun.

When pops are fighting over the gun, the one little boy ran, the gun discharges while they're struggling over the gun.

[1:03:29] My we're on the phone with my grandmother because she's telling us what time to be there for Thanksgiving. She's like, Oh, I heard a noise. Let me check on Frank.

[1:03:36] That was him getting shot. It was what she heard. My uncle at the time was still on the street.

Westwood between North and between Pulaski and Smallwood.

And my girl, my uncle still on the police force. He hears on the radar. He's like, we like what we zoom down there. It's police everywhere because now my uncle and said, police family, it's police cars everywhere.

Granny is like, Pop-Pop went to the hospital, but Pop-Pop wrestled the gun away from the young boy and in the wrestling got shot, went to the hospital.

And Pop-Pop had the gun though, that's how the police called him because they had their fingerprints on the gun.

Wow, they don't make men like that no more. R.i.p. Frank, Like I just I always been at a mindset like yo, you could take what you want and so many car jacks and check jacking.

The Importance of Concealed Carry and Belly Bands

[1:04:40] If somebody got the drop on you that gun don't mean nothing Like you still don't want to let somebody know you had a gun and it's a guy who I'm friends with who was riding bikes with me.

I don't even want to say friends. He was in my bike group and some people probably know him when I tell this quick story.

He was the one who introduced me to the belly band. So like if you got on a sweatsuit or you got on jeans or something. You put your gun?

You put your gun around here, up around your ribs almost.

So the belly band has a holster where it comes around and it clasps.

And a lot of big guys, he was a small guy, but a lot of big guys will wear that because when they lean over in that belly thing, the gun be jamming you all in your side.

So he was like, he had his belly band on and this was like maybe 20 years ago or something.

He pulled in a gas station. As soon as he got out to get gas, a dude jumped in.

And when a dude jumped in, another guy put a gun on him and was like, get in the back of the car.

He happened to be a police officer. So he had his gun on him under his belly band.

And the smart thing is if somebody already got the drop point, you can't be like, like, this is not, this is not the movies.

Like, it's not, so So he said they had blindfolded him and they were taking him somewhere and they were trying to find an alley or somewhere to take him to.

[1:05:51] And they were pulling somewhere, pulling somewhere, and they were arguing about, like, no, pull here, pull there.

We can leave him here, da, da, da. So he knew, like, this is it.

I got a matter of seconds.

So he was like, as soon as they got him out of the car...

The whole time they never checked them. You know what I mean? And it was up here.

So he was like, he pulled the blindfold off, bop, bop, bop, bop, hit him. One was like paralyzed and one died.

[1:06:18] And was able to like run away. That's crazy.

And he just was like, you know, and like, he always posts like every year.

And he was just like, yeah, man, like the belly band, like you got hoodies or, you know, certain clothes on, like in the summertime, like, you know, people might be able to see your gun when it lifts up on your side, but it was just like the belly band, like it's kind of hitting on your rib area.

If you got a little back. That scared me. That's my final thought.

Gun scare me. What's your final thought? You wanna go to the gun range with me? Sure.

I mean, I don't think it's nothing to be scared of. They just took away the HQL law where you can buy a gun now without having the HQL.

I need to do all that stuff. I think you should have one. If somebody really wants to get in your house, right?

They could. I mean, they sort of Right, so if they get in your house now, you have to ask yourself What is gonna happen when they get to my room?

I'm trapped. Yeah, so it's like at this point you do want to feel like you can defend yourself because I know that I got my handgun and Then I have my 12 gauge when they hear that motherfucker go.

[1:07:26] That bitch going through the next three houses.

Guns and Car Theft in Philadelphia

[1:07:33] So scary like the shotgun even if you just send out a warning shot if a motherfucker hit her and he outside in the car He leave it. He ain't even waiting for you to come down.

He like oh shit. We picked the wrong Yeah, like it's crazy cuz when I was a Philly both my guns got stole like somebody that sounds like Philadelphia felt like the valet set me up and And somebody came in and broke my window, but she parked the car where it was hidden.

And the only reason why I didn't have my gun on me that night was because I didn't pick up my license for Philly.

And I was like, yeah, I'm going out to dinner.

[1:08:12] I don't need it. And I don't carry it because I feel like I need it.

I just feel like it becomes a part of what you do.

When you take the classes, they tell you the moment you feel like you don't have it is when you need it. It's like you're never anywhere safe.

There's so many stories about people in the middle of a store and somebody walk in and start shooting. You just don't know when you're going to have to be strapped in. How'd you be the hero?

I ain't trying to be the fucking hero.

It just come down to it. I ain't trying to say nobody fucking like my life.

I ain't trying to be the nigga like, everybody get down, I've got it.

[1:08:50] Fuck no, not me. No, fam.

All right, Brian, thanks for today. You're welcome. This was random, but it was funny.
